WHAT IS THIS PRODUCT?

Fund type: FDI BRD Global is an undertaking for collective investment in transferable securities (UCITS) and promotes environmental and social characteristics in accordance with Article 8 paragraph (1), (2) and (2a) of Regulation (EU) 2019/2088.

The period: This product does not have a predetermined duration, but the recommended minimum duration is five years. However, fund units may be redeemed at any time.

Objectives: Active resource valorisation through investment in global equity markets, in particular by investing in marketable ETF-type UCITS with exposure in relation to them. Product performance is closely related to developments in global stock indices. For a holding period shorter than the recommended period, the product may have higher volatility.

Instruments: The Fund will actively use investment in securities, and units issued by other marketable ETF-type UCITS, units issued by unlisted investment funds, with the aim of reducing the risk taken by the Fund by spreading the risk across various financial instruments, industries and geographical areas. These instruments should not affect an investor's ability to redeem units on demand. The Fund does not expressly track any index.

Strategic (long-term) Fund allocation in terms of asset classes is: 75% in investments aligned to environmental and social characteristics in the form of shares, units issued by marketable ETF-type UCITS with global equity market exposure and units issued by equity investing UCITS and 25% to other assets such as deposits and bonds. The Fund may also invest in other categories of instruments, such as derivatives. The Fund promotes environmental and social characteristics and expects the issuers in which it invests directly or indirectly to follow good governance practices, but does not have a sustainable investment objective, nor does it aim to have a minimum proportion of sustainable investments. The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities. Full details on the promoted environmental and social characteristics are available in Annex 1 to the Fund Prospectus.

The Fund does not distribute any dividends, and gains obtained from investment made are reinvested in the Fund and included in the fund unit value which is published each working day.

Markets: When allocating investment, the Fund will take into account the size and importance of the various financial markets, and so the main exposures will be to mature markets such as those in the US, Europe or Japan, but it can also invest in assets with exposure on other markets.

Investor type: Taking into account Fund objectives and the Investment Policy, it is addressed to investors interested in investing in international capital markets. As a result, the profile of the investor to whom the Fund is addressed is one who has defined a long-term investment horizon and who takes on the risks set out in the Prospectus.

Other information: The Fund Depositary is BRD - Groupe Societe Generale. Fund documents and reports, as well as the latest fund unit values may be found at: www.brdam.ro.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for the minimum recommended period of 5 years. The actual risk can be significantly higher if you keep the product for a shorter period than the minimum recommended and you may receive a smaller amount than the one invested. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 (medium-low) out of 7 for class A and class E and 4 (medium) out of 7 for class USD. This rates the potential losses from future performance at a medium-low for class A and class E and at a medium level for class USD, and poor market conditions are unlikely to impact, respectively, could impact the Fund's capacity to pay you.

The Fund is denominated in RON but also has classes in other currencies and their return may vary depending on the fluctuations of these currencies against the national currency.

The risks relevant for the Fund are not included in the synthetic risk indicator (SRI):

The liquidity risk - is related to the ability to meet payment obligations when they are due without incurring unacceptable costs. The Fund's investment will be made on different markets whose liquidity may vary. The conditions of reduced or null liquidity at a given time on one or more of these markets may have a negative impact on the fund unit value, especially in case of significant changes in its asset.

The operational risk - is the risk of a loss determined either by the use of inadequate processes, systems or human resources or that did not fulfil their function properly, or by external events and actions.

The likely estimated impact of the Fund's sustainability risks is low.

This product does not include any protection against future market performance and therefore you may lose all or part of your investment. The tax legislation of the individual investor's home Member State may have an impact on the actual remuneration.

Recommended holding period: 5 years Investment example: EUR 10 000 / USD 10 000 / RON 50 000		If you redeem after 1 year			If you redeem after 5 years (recommended period)		
Scenarios		Class A	Class E	Class USD	Class A	Class E	Class USD
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.						
Stress	What amount can you receive after deducting costs	RON 22,920	EUR 4,560	USD 3,060	RON 26,440	EUR 4,440	USD 4,510
	Average return every year	-54.2%	-54.4%	-69.4%	-12.0%	-15.0%	-14.7%
Unfavourable	What amount can you receive after deducting costs	RON 43,950	EUR 9,030	USD 8,150	RON 52,040	EUR 11,350	USD 10,080
	Average return every year	-12.1%	-9.7%	-18.5%	0.8%	2.6%	0.2%
Moderate	What amount can you receive after deducting costs	RON 52,390	EUR 10,740	USD 10,720	RON 70,340	EUR 14,110	USD 13,170
	Average return every year	4.77%	7.37%	7.16%	7.06%	7.13%	5.66%
Favourable	What amount can you receive after deducting costs	RON 65,100	EUR 12,590	USD 14,720	RON 89,260	EUR 15,810	USD 17,340
	Average return every year	30.2%	25.9%	47.2%	12.3%	9.6%	11.6%

The figures shown include all costs of the product itself; but may not include all costs you pay to your advisor or distributor. The figures do not take into account your tax situation, which can also affect the amount you receive. What will you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. The unfavourable scenario occurred between 01.05.2011-29.04.2016 (class A), 01.04.2015-31.03.2020 (class E), 01.09.2021-23.04.2024 (class USD) for the recommended investment period. The moderate scenario occurred between 01.09.2018-31.08.2023 (clasa A, USD), 01.10.2015-30.09.2020 (clasa E) for the recommended investment period. The favourable scenario occurred between 01.12.2016-29.11.2021 (class A), 01.05.2014-30.04.2019 (class E), 01.11.2016-29.10.2021 (class USD) for the recommended investment period. Markets could perform very differently in the future. The crisis scenario shows what you can achieve in extreme market circumstances.

WHAT HAPPENS IF BRD ASSET MANAGEMENT S.A.I IS UNABLE TO PAY OUT?

This product is not covered by any guarantee scheme. There is a potential risk of not obtaining the expected return and even of losing the initial investment. This risk arises from the financial instruments held in the Fund's portfolio, as a result of adverse changes in the creditworthiness of the counterparty or the issuer of a financial instrument, as they may end up not fulfilling their obligations on time or in their entirety.

According to the specific legislation, the assets of the funds are separated from the assets of the Manager, BRD Asset Management S.A.I., and are not affected in the event of the Manager's potential inability to pay.

WHAT ARE THE COSTS?

The person selling you this product may charge you other costs. In this case, it will provide you with information on those costs and show you the impact of all costs on your investment over time.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you own the product and the product performance. The amounts shown here are illustrations based on an example of an invested amount and on different possible investment periods.

Costs over time

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario
- The amount of EUR 10 000/ USD 10 000/ RON 50 000 per year is invested

	If you redeem after 1 year			If you redeem after 5 years (recommended holding period)		
	Class A	Class E	Class USD	Class A	Class E	Class USD
Total costs	RON 958	EUR 192	USD 192	RON 5,713	EUR 1,144	USD 1,103
Annual cost impact*	1.9%			1.9%		

*This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at maturity your average return per year is projected to be 8.98% (class A) / 9.04% (class E) / 7.57% (class USD) before costs and 7.06% (class A) / 7.13% (class E) / 5.66% (class USD) after costs.

Composition of costs

One-off costs upon entry or exit		If you redeem after 1 year	
		Class A	Class E, Class USD
Entry costs	At the time of publication of the document we do not charge a subscription fee	0	0
Exit costs	At the time of publication of the document we do not charge a redemption fee	0	0
Ongoing costs (taken each year)			
Management fees and other administrative or operating costs	1.9% of the value of your investment per year. The costs include the management fee as per the prospectus and the recurring costs we charge you every year to manage your investment. This is an estimate based on actual costs over the last year.	RON 934	EUR / USD 187
Transaction costs	0.0% of the value of your investment per year. The impact of purchase and sale costs of the product's supporting investment. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	RON 24	EUR / USD 5
Incidental costs taken under specific conditions			
Performance fees	There are no performance fees for this product	0	0

HOW LONG SHOULD I HOLD IT AND CAN I WITHDRAW THE MONEY EARLY?

The recommended holding period: 5 years. The minimum recommended period is chosen based on the investment policy. This period has no contractual nature, the moment of subscription and redemption belong exclusively to you. The redemption in a short period of time can affect the expected return. No additional fees or redemption penalties are charged regardless of the investment period.

HOW CAN I SUBMIT A COMPLAINT?

Any complaint regarding the product, the creator of this product, BRD Asset Management S.A.I., or the person selling this product can be submitted by the following means:

- At any of the distributor's units, BRD - Groupe Societe Generale S.A.;
- At the registered office of BRD Asset Management S.A.I. S.A. or by post, to the same address;
